# 855 – Purchase Order Acknowledgment

## Functional Group=PR

This Draft Standard for Trial Use contains the format and establishes the data contents of the Purchase Order Acknowledgment Transaction Set (855) for use within the context of an Electronic Data Interchange (EDI) environment. The transaction set can be used to provide for customary and established business and industry practice relative to a seller's acknowledgment of a buyer's purchase order. This transaction set can also be used as notification of a vendor generated order. This usage advises a buyer that a vendor has or will ship merchandise as prearranged in their partnership.

# REF - Reference Identification

|                           |                    |
|---------------------------|--------------------|
| <b>Pos:</b> 0500          | <b>Max:</b> > 1    |
| <b>Heading - Optional</b> |                    |
| <b>Loop:</b> N/A          | <b>Elements:</b> 2 |

**Usage Option:** Optional

To Specify identifying information

## Element Summary:

| <u>Ref</u> | <u>Id</u>   | <u>Element Name</u>   | <u>Req</u> | <u>Type</u> | <u>Min/Max</u> |
|------------|-------------|---|------------|-------------|----------------|
| REF01      | 128         | Reference Identification Qualifier  | M          | ID          | 2/3            |
|            | <u>Code</u> | <u>Name</u>   |            |             |                |
|            | IA          | Internal Vendor Number  |            |             |                |
| REF02      | 127         | Reference Identification  | C          | AN          | 1/50           |
|            |             | Reference Information as defined for a particular Transaction Set or as specified by the Reference Identification Qualifier |            |             |                |

# DTM - Date/Time Reference

|                           |                    |
|---------------------------|--------------------|
| <b>Pos:</b> 1500          | <b>Max:</b> 10     |
| <b>Heading - Optional</b> |                    |
| <b>Loop:</b> N/A          | <b>Elements:</b> 2 |

**Usage Option:** Optional

To Specify pertinent date and times

Syntax Notes: 1 At least one of the DTM02 DTM03 or DTM05 is required  
 2 If DTM04 is present then DTM03 is required  
 3 If either DTM05 or DTM06 is present, then the other is required.

## Element Summary:

| <u>Ref</u> | <u>Id</u>  | <u>Element Name</u>   | <u>Req</u> | <u>Type</u> | <u>Min/Max</u> |
|------------|--|---|------------|-------------|----------------|
| DTM01      | 374  | <b>Date/Time Qualifier</b>  | M          | ID          | 3/3            |
|            |  | Code specifying type of date or time, or both date and time                       |            |             |                |
|            | <u>Code</u>  | <u>Name</u>   |            |             |                |
|            | <i>Delivered Purchase orders – allowable codes</i>       |   |            |             |                |
|            | 067  | Current Schedule Delivery   |            |             |                |
|            | <i>Purchase orders held for pickup – allowable codes</i> |   |            |             |                |
|            | <b>118</b>   | Requested Pick-up (REQUIRED WITH FINAL 855 with BAK10=SH for FOB purchase orders) |            |             |                |
|            | 068  | Current Schedule Ship   |            |             |                |
| DTM02      | 373  | <b>Date</b>   | C          | DT          | 8/8            |
|            |  | Date Expressed as CCYYMMDD  |            |             |                |

## Comments:

1. If the Current Scheduled Ship Date is changing from the date on the 850 then a note in MTX02 is required
2. For those PO's KeHE schedules pickup, the DTM01= 118 is required on a final 855 with BAK10=SH

# TD1 - Carrier Details (Quantity and Weight)

Pos: 2300      Max:2  
 Heading – O  
 Loop: N/A      Elements: 7

**Usage Option:** MUST Use with FOB Purchase Orders (FOB) on FINAL 855 with BAK10=SH  
 To specify the transaction details relative to commodity, weight, and quantity.

## Element Summary:
